

About Our Company

Our Company

Goals: Represent the values of your organization, tell your story, who do you help and how do you help them.

Criteria: A short version (~ 1 paragraph) could be used for the front page of your website. A longer version (~2-3 paragraphs) would be great as a standalone “about us” page, which could be linked to from the front page, and provides the opportunity to really show why your practice is different from others and can be a good fit for your clients.

Short Example

We pride ourselves on our professional and courteous staff, and well trained physicians. All of us at Online Foot Doctors strive to provide the residents of Noblesville, Indianapolis, Tipton, Fishers, Richmond, Seymour, Columbus, Anderson, Muncie and Elwood and all parts in between with quality and attentive care. We consider all patients to be like members of our extended family. Our board-certified doctors will help you with your foot and ankle concerns while providing comprehensive care through our secure telemedicine portal.

Short “About Our Company” content snippet. (~1 paragraph)

Longer “About Our Company” page. (~2-3 paragraphs)
